## SUMMARY

I'm a design-minded, detail oriented web developer passionate about combining beautiful code with beautiful design. I love learning new and better ways to create seamless user experiences with clean, efficient, and scalable code. I consider work an ongoing education, and I'm always looking for opportunities to work with those who are willing to share their knowledge. At the end of the day, my primary goal is to create best user experience.

## KEY SKILLS

- Web Application Development
- Responsive UI Design
- E-Commerce Application
- App-Solutions
- Technical Analysis & Testing
- Database Structures
- Process Optimization

## TECHNICAL SKILLS

- **Languages:** HTML, CSS, Javascript,
- **Frameworks and Libraries:** React.js, Nodejs, JQuery, Express, Bootstrap
- **Databases:** MySQL, MongoDB

## RELATED WORK EXPERIENCE

### Full Stack Developer

#### Toronto Bakery

##### Web Application Development

- Drafted and wrote the front-end of our **E-Commerce application** using ReactJS with reusable components.
- Structured **back-end codes** in Nodejs, to maintain easy access to data

##### Technical Analysis & Testing

- Performed **evaluation** & testing of new software for use within the projects to be developed
- Installed the updated software components in **testing** and production environments

### POC's (Proof of Concept)

#### Netflix and Amazone Clone

- To enhance my technical skills and knowledge of **React**, I have worked on these 2 projects. In which I've used React for the front-end, **React Context API** for data layering, and **Firebase** for hosting.

## CURRENT WORK EXPERIENCE

### IT Help Desk Support

Reena.org, 927 Clark Avenue West, Thornhill, Ontario

- Being Level 1 technician working on tickets assigned by manager.
- Solving technical issues by taking remote access to the system or going over the site to solve the issue.
- Managing user's profile and setting up environment according to company's standard.
- Using Ghost Server for capturing images of windows and deploying them on a fresh system.
- Creating outlook emails for new users and providing them assistance with any issue related to their outlook account.
- Resolving problems related to networking devices, computer hardware, or software and installing windows updates or any driver updates on the user's system.
